**LEGACY Energy Management Solutions  
Expands Business Development Team**

HOUSTON (Mar. 7, 2007) – LEGACY Energy Management Solutions (LEGACY), a leading Houston-based provider of energy management solutions to commercial, industrial and governmental consumers, today announced a new addition to its business development team.

**Bert Keller** joins LEGACY as a Senior Account Executive and brings 20 years of commercial real estate business experience as well as extensive experience in the government sector. Previously, Keller served as President of A.L.K Interests, Inc., which provides commercial real estate services to developers, property owners and tenants. Keller has negotiated over 3.2 million square feet of lease transactions, directed of activities and business development at A.L.K Interests for the past ten years. Keller also served on the Houston City Council, where he was Chairman of the Technology, Transportation and Infrastructure Committee. Keller also served as a Director for the Houston-Galveston Area Council where he was Chairman of the Emergency Preparedness Committee leading the development of the region's first Responder Plan for Governor Rick Perry's Homeland Security Task Force. Keller, a native Houstonian, received his bachelor's degree in petroleum engineering from the University of Texas in Austin and attended Brookside College in Cambridge, England.
