LEGACY Energy Solutions Expands Account Team

HOUSTON, TX (August 26, 2008) LEGACY Energy Solutions (LEGACY), today announced the addition of Karen Sears to its municipal utility business development team. “Due to the volatility of today’s energy market, clients are requiring greater expertise and more services in their efforts to control cost and improve efficiency,” said John Elder, President and CEO.

“Karen is a highly respected professional and she has spent more than 20 years working with utility districts and municipalities of all sizes. The combination of her passion for service, contacts and experience will make her a tremendous advocate for our clients and LEGACY, stated Elder.”

Sears attended Odessa College and the University of Texas of the Permian Basin. She also completed Texas A&M TEEEX Water and Wastewater courses. Karen is currently a member of the Association of Water Board Directors and serves as the Vice President of the Board of Directors for Harris County MUD No. 390.

##

About LEGACY Energy Services
